ASSURANCE OF GENUINE PRODUCTS

MOTOROLA SOLUTIONS INTRODUCES USE OF ANTI-COUNTERFEIT QR CODE LABEL IN ALL MOTOTRBO PORTABLE RADIOS

At Motorola Solutions, we invest millions of dollars annually into research and development to ensure that we provide customers the best communication solutions. Our products are designed for optimum performance and tested stringently for reliability, quality and user-safety.

We urge our customers to purchase genuine radio from our authorised partners and not to be misled by counterfeit radio resellers or distributors. Check Motorola authorized partner list at www.motorolasolutions.com.

KEY FACTS

A TRUSTED BRAND

As a trusted brand in the market, Motorola Solutions is committed to quality and strives to consistently provide dependable products, services and reliable support for all its mission-critical communication solutions.

AFTER-SALES SUPPORT

In counterfeit-cases, users are deprived of Motorola Solutions after-sales support.

MOTOROLA TWO-WAY RADIO

Suppliers of Counterfeit Motorola two-way radio copy the outer body, but fail to provide the same performance users always rely on. Visit www.motorolasolutions.com, to know the latest MOTOTRBO portable radio model and discontinued radio.

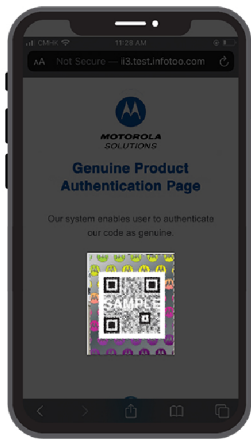

COUNTERFEIT TWO-WAY RADIOS

Counterfeit two-way radios that are found in Vietnam not only carry copy of the genuine Motorola Solutions two-way radio designs, but also carry unauthorized uses of Motorola Logo and model numbers, making it difficult for customers to differentiate them from the genuine ones.

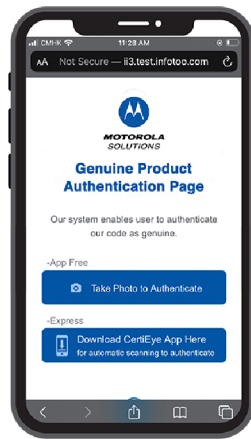

Our primary concern is the well-being of two-way radio users. In view of the current situation over counterfeits in Vietnam, Motorola Solutions is excited to introduce the use of anti-counterfeit QR code label for tackling fake product and parallel import.

A BIG HELP FOR MOTOROLA CUSTOMERS

Now, a customer can detect counterfeit radios in a hassle-free manner by following these simple steps:

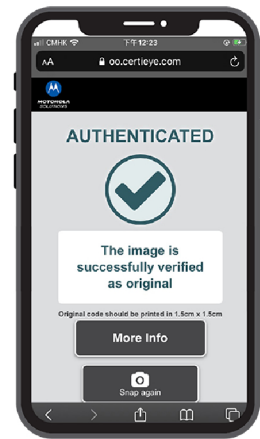

Remove battery of the MOTOTRBO portable radio to see QR Code label

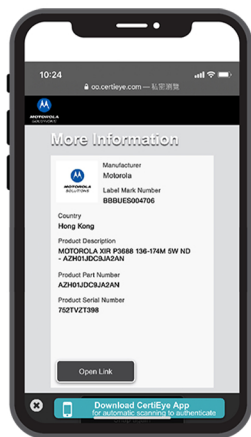

Take out your Wi-Fi/GPRS enabled mobile phone having internet connection

Scan the QR Code label through your mobile phone camera

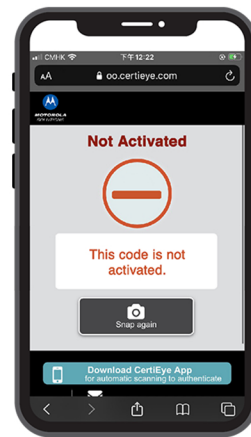

After few seconds you get this info for genuine radio

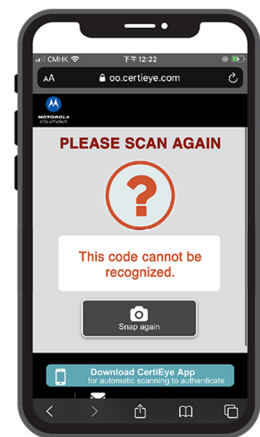

After authenticity of product, check product detail

Reach to reseller in case on Invalid message to verify genuineness of radio

QR Code is still Not Activated, reach to reseller to verify

QR Code not scanned properly, try again
